

## INDUSTRY:

# MECHANICAL AND PLANT ENGINEERING

## Automating the MSME Aging Process

### Introduction

The client is an international mechanical and plant engineering company specializing in intralogistics and conveyor systems. They employ around 4,500 people. The company has offices on all 7 continents and handles its export with representations in over 70 countries.

### The Challenge

To automate the MSME Aging process, search the invoices for vendors and notify the same vendors for payments before due dates. As the task volume is as high as 8,000 records, the process is error-prone and repetitive.

Manual AHT for the process - 30 to 45 Minutes

### Solution

Bots were deployed to launch SAP and login with credentials; Navigate to business partners master data; Read the data; Navigate to vendor liabilities aging; Identify the vendor invoices due list; Prepare a consolidated report with the vendor invoices due.

### Outcomes

- **3 to 5 mins** for the Bot AHT
- **85% FTE** time-saving at the minimum
- **100%** error-free data handling
- Data accuracy and faster processing
- No manual intervention required
- Real-time Analytics and Business Intelligence
- Elastic and Agile Scalability to handle changing work volumes

### Applications Automated

- SAP
- Excel

### Processes Automated

- SAP Navigation
- Data Extraction
- Report Generation
- Data Consolidation

### About - The Judge Group
